ELSEVIER

Reviews on Cancer

Vol. 1332, 1997

BIOCHIMICA ET BIOPHYSICA ACTA
BBA

Author Index

Adams, J.M.
Whitehead Symposium on Cancer (1332) R15
Amati, P., see Maione, R. (1332) M19

Baserga, R., Hongo, A., Rubini, M., Prisco, M. and Valentinis, B.
The IGF-I receptor in cell growth, transformation and apoptosis (332) F105
Brown, J.P. and Pagano, M.
Mechanism of p53 degradation (1332) O1

Cadigan, K.M. and Nusse, R.
Wnt Meeting 1996 (1332) R1
Campbell, S., see Whitehead, I.P. (1332) F1
Croce, C.M., see Huebner, K. (332) M65

Dean, M.
Towards a unified model of tumor suppression: lessons learned from the human *patched* gene (1332) M43
Der, C.J., see Whitehead, I.P. (1332) F1
DiMaio, D., see Drummond-Barbosa, D. (1332) M1
Dove, F.W., see Shoemaker, A.R. (1332) F25
Draetta, G. and Eckstein, J.
Cdc25 protein phosphatases in cell proliferation (1332) M53
Dranoff, G.
Gene Therapy 1996 (1332) R21
Druck, T., see Huebner, K. (332) M65
Drummond-Barbosa, D. and DiMaio, D.
Virocrine transformation (1332) M1
Duckett, C.S. and Thompson, C.B.
The control and execution of programmed cell death: an update (332) R45

Eckstein, J., see Draetta, G. (1332) M53

Galvin, K.M., see Shi, Y. (1332) F49
A. Gould, K., see Shoemaker, A.R. (1332) F25

Hadaczek, P., see Huebner, K. (332) M65
Hake, L.E. and Richter, J.D.
Translational regulation of maternal mRNA (1332) M31
Hongo, A., see Baserga, R. (332) F105
Huebner, K., Hadaczek, P., Siprashvili, Z., Druck, T. and Croce, C.M.
The *FHIT* gene, a multiple tumor suppressor gene encompassing the carcinogen sensitive chromosome fragile site, *FRA3B* (332) M65

Lee, J.-S., see Shi, Y. (1332) F49
Livingston, D.M.
Cancer genetics and tumor suppressor genes. Sponsored by Cold Spring Harbor Laboratory – August 14–18, 1996 (1332) R25
Luongo, C., see Shoemaker, A.R. (1332) F25

Maione, R. and Amati, P.
Interdependence between muscle differentiation and cell-cycle control (1332) M19
Moser, A.R., see Shoemaker, A.R. (1332) F25

Nusse, R., see Cadigan, K.M. (1332) R1

Pagano, M., see Brown, J.P. (1332) O1
Pardoll, D.
Maturation of cancer vaccinesA meeting report on 'Cancer Vaccines 1996,' sponsored by the Cancer Research Institute, held October 7–9, 1996 (1332) R33
Pines, J.
Cyclin-dependent kinase inhibitors: the age of crystals (1332) M39
Polakis, P.
The adenomatous polyposis coli (APC) tumor suppressor (332) F127
Prisco, M., see Baserga, R. (332) F105

Richter, J.D., see Hake, L.E. (1332) M31
Rossman, K.L., see Whitehead, I.P. (1332) F1
Rubini, M., see Baserga, R. (332) F105

Shi, Y., Lee, J.-S. and Galvin, K.M.
Everything you have ever wanted to know about Yin Yang 1..... (1332) F49
Shoemaker, A.R., A. Gould, K., Luongo, C., Moser, A.R. and F. Dove, W.
Studies of neoplasia in the Min mouse (1332) F25
Siebenlist, U.
NFκB/IκB proteins. Their role in cell growth, differentiation and development. Madrid, Spain, July 7–10, 1996 (1332) R7
Siprashvili, Z., see Huebner, K. (332) M65

Thompson, C.B., see Duckett, C.S. (332) R45

Valentinis, B., see Baserga, R. (332) F105
Van der Vliet, P.C.
DNA replication under the Rigi Kulm. EMBO workshop on 'Molecular Biology of DNA Replication', Weggis, Switzerland, 8–13 September 1996 (1332) R37

Whitehead, I.P., Campbell, S., Rossman, K.L. and Der, C.J.
Dbl family proteins (1332) F1
Wolff, L.
Contribution of oncogenes and tumor suppressor genes to myeloid leukemia (332) F67
